w:ll have a very perceptible effect on cash.
Indeed, the surplus reserve for the week just ended declined almost \$3,000,000. from the fact that the net gain of \$1,430,000 in cash did not begin to meet the extra reserve requirements of \$4,417,400, necessitated by the raise of \$18,239,000 in deposits. The week's figures, it may be stated, are in excess of anything reported at this season last year, when stock exchange transactions, both in current shares and bond purchases, ran away ahead of what

bond purchases, ran away ahead of what business is now reported.

The tremendous rise in loans at this time is somewhat difficult of explanation. The statement in detail shows the increases have been pretty well distributed over the entire list of banks. The commercial paper market is more active, but even taking this fact and stock exchange business into consideration, the total expansion overruns the maximum needs of both. It is quite likely that arrangements completed for several large deals pending contributed to the total gain.

hour at a time to aftend to private business.

The deadlock was almost the sole topic of conversation yesterday and everybody was speculating on the probable outcome. Councilman Carr was reported as considerably improved in health last night, and it is possible he may be able to attend the regular council meeting tomorrow night. Mrs. Abbott, the wife of Councilman Abbott, was reported about the same, but still very low.

The five members last evening took a recess until Monday morning at 9 o'clock, unless they should be summoned together sooner by the president. A subpoena is out for Councilman Powers to appear Monday morning to testify at the Erdman inquest. The subpoena has not yet been served, but Dr. Powers' attorney says he will be on hand when he is needed.

COUNTY ROAD TAX.

Special Levy May Be Ordered By the Voters.

The voters of the different precincts of Weber county will, in all likelihood, have an opportunity of voting on a proposition to levy a special road tax, the money so raised to be expended within the precincts voting the tax. The county commissioners are in favor of the proposition, and yesterday met representatives from the different precincts for the purpose of talking over the subject. There were seventy-three people present, including most of the road supervisors. The proposition was explained and generally discussed. Such a tax can be raised only by each precinct voting for the same, and in case such a tax is levied by a precinct, the money raised by that tax must be expended within the precinct voting the tax. That is, each precinct spends its own money, under the direction of the county board and the district road supervisors. The voters of the different precincts county board and the district road su-

If such an election is held it will likely be at the same time as the special congressional election, so as to avoid the extra expense of judges. The mode of procedure would be for each district to petition the county board for the submission of the question to the vot-ers. The county commissioners may then approve the petition, and the question be submitted to the voters. The commissioners yesterday ordered each road supervisor to arrange for meetings in their district. The commis-sioners will be at these meetings to discuss the matter.

ARE YOU REAL

THE HERALD'S HOME STUDY PAPERS?

The Greatest Opportunity For Self-Education Ever Presented to the Public.

SPRING TERM WILL NOW OPEN.

THE HERALD'S HOME STUDY CIRCLE will present an entirely new programme of studies, BEGINNING NEXT THURSDAY.

It is important that you get every lesson from the first day of the term.

BE PUNCTUAL. Start with next Thursday's issue of THE HERALD and do not allow a single lecture to escape you.

THE HOME STUDY CIRCLE is now favorably known throughout the length and breadth of the United States. It is indorsed without reservation by educational leaders everywhere. The Bureau of Education at Washington recognizes it as an educational institution of national importance and has included it in its exhibit for the Paris Exposition.

The SPRING TERM will continue throughout February, March, April and May, presenting the following courses of study:

American Political Parties.

This course has been arranged for young voters and for the presidential year with a view to directing intelligent political study and discussion. Dr. Macy, who will conduct these studies, is recognized by students of political science everywhere as a leading authority.

Recent Scientific Discoveries.

The world has been startled during the last few months with some remarkable scientific discoveries known to the public as "Wireless Telegraphy," 'Color Photography," "Liquid Air," etc. These will be presented in a popular way by Professor William J. Hopkins of Drexel Institute.

Biographical Studies For Girls.

Of the educational courses which have already been presented through the columns of THE HER-ALD, few have been more popular than that entitled "Royal Women of European History," prepared by Mrs. Charlotte Brewster Jordan, and published last summer. THE HERALD is pleased to announce that Mrs. Jordan has prepared a new course for the HOME STUDY CIRCLE, to be entitled "Biographical Studies for Girls." This new series will include the following studies: 1. Joan of Arc. 2. Vittoria Colonna. 3. Angelica Kauffmann. 4. Caroline Hershel. 5. Sarah Kemble Siddons. 6. Madame Le Brun. 7. Mary Lamb. 8. Charlotte Corday. 9. Jane Austen. 10. Elizabeth Fry. 11. Harriet Martineau. 12. Margaret Fuller. 13. Charlotte Cushman. 14. Jenny Lind. 15. Rosa Bonheur. 16. Florence Nightingale. 17. Louisa M. Alcott.

Twenty Lessons in French Conversation

of Americans. In anticipation of this THE HER-ALD has arranged with Professor Benno Kirschbaum, a distinguished French scholar and teacher, to present twenty easy lessons. Professor Kirschbaum has conducted European parties and is thoroughly familiar with the initial language needs of an American in Paris.

Photography for Amateurs.

Mr. George W. Gilson, editor of the Professional Photographer, will direct this course. The studies will include papers on cameras, lenses, dry plates and films, the dark room, negatives, developing, retouching, printing, photographic papers, flashlights, outdoor and indoor pictures, etc., with general papers on the history and advancement of the art of photography. The course will be written for ama-

Golden Ages of Literature.

The course in literature arranged for the Spring Term takes a bold sweep of the entire field from Zoroaster and Homer to Tennyson and Longfellow. Dr. Edward Everett Hale of Boston, Dr. Parrott of Princeton, Professor Palmer of Yale, Prof. More of Harvard, Professor Smith of the University of Wisconsin, Miss Vida Scudder of Wellesley and the other literary writers whose names appear among our list of contributors have entered enthusiastically into the work of this course, and THE HERALD can safely promise the rarest literary treat ever offered to newspaper readers,

THE HERALD'S HOME STUDY CIRCLE has the co-operation and support of the leading literary and college men of the country. The following writers will contribute to the Spring Term courses:
